CAREER OBJECTIVE

Detail-oriented and technically skilled IT graduate with hands on experience in desktop support, software installations, hardware troubleshooting, and ICT administration. Previously, I was supporting daily IT operations at Intaba Primary School. Strong background in problem-solving, user support, and system installations. Passionate about learning and contributing to a dynamic IT environment.

PROJECTS

Mugg & Bean Loyalty Rewards System (Final Year Project)

- Collaborated and designed an enhanced ordering system with a built-in customer rewards program to increase customer engagement and boost traffic by 10%
- Improved user experience with a responsive User Interface (UI), utilizing JavaScript.
- Successfully led the project team to achieve a 90% final grade, demonstrating strong technical, collaborative and presentation skills.

Personal Resume Website

- Designed and developed a fully functional personal website with key features such as hyperlinks to redirect users to my previous projects and user-friendly Call to Action (CTA) buttons that allow the user to contact me on various online platforms.
 - Built the backend using JavaScript, while leveraging HTML, CSS and JavaScript for a responsive and user-friendly frontend.
-

TECHNICAL SKILLS

- Operating Systems: Windows 10/11, Linux (basic)
 - Software & Tools: Microsoft Office, Git, VS Code, Email JS, Google Workspace
 - Languages: Python, C#, JavaScript, HTML, CSS, PowerShell
 - Support Tools: Troubleshooting, Software/Hardware Installation
 - Networking: LAN/ Wi-Fi setup, Router Configuration
-
